Position: Tool and Die Machinist
Industry: Stamping Manufacturer
Employee Type: Full Time

Description of Position

Set up and operate standard milling machine, lathe, drill press, grinder and other machine tools as directed under general supervision. CNC experience preferred.

Job Functions (include but are not limited to):

- Determine the extent and method of repair to dies by means of careful inspection and accurate measurement.
- Perform repair operations to dies.
- Design and manufacture tool fixtures for new products.
- Perform other duties as required or assigned by supervisor.
- Follow all OSHA and internal safety standards.

Education/Skills/Experience Required

- High School Diploma/GED
- 3 years minimum verifiable machinist experience and/or Technical Diploma
- Ability to perform standard shop computations (math)
- Ability to read schematics (blue prints), engineering drawings, and technical manuals
- Ability to perform basic maintenance of equipment
- Working knowledge of CNC programming and operation.
- Ability to read, understand, follow and enforce safety procedures
- Ability to make administrative/procedural decisions and judgments as well as work within a team environment

We offer a drug free work place along with a competitive salary and benefits package.
